During the course I will be teaching you how to turn a printed image into a portrait painting using both oil and acrylic paint together. I have been teaching this process for five years now with a 100% success rate. Students who have been through the first course generally like to take further courses with me so that they can carry on developing their skills and making more informed decisions in their work.

I have been teaching this course at Community Education night classes for five years now, as well as for two years online. For those who are not able to attend classes at the physical address, an online full course of pre recorded live lessons is available at a cost of \$250 for an eight week course. I give many comprehensive drawing demonstrations in the lessons. I am also available to communicate with you via Skype and by you e.mailing your work to me which I comment on, print out and draw on top of, re-scan and send back to you so that you can see how to develop the work further. Online courses are a lot of fun and just as successful as attending a class. Soon I will be introducing conference classes where there will be two or three students in different

countries all attending the same online course and able to talk to each other as well as myself during online class time.

**Resources available:**

For those attending classes at Jervois Road, there is a mini library with many art books available for research as well as the internet if desired. I will also be able to project different aspects of interest and imagery pertinent to the lessons via the internet on to the wall (large format) of the teaching room.

Please visit my website for a weekly lesson breakdown on the 'Night Classes' page.

# Life Drawing Courses

Courses run for eight weeks at a cost of \$250 per course. Professional painter / illustrator and tutor James Wakelin will teach you many skills to help you create beautiful fresh looking drawings.

Please visit [www.illustr8.co.nz](http://www.illustr8.co.nz) to view his highly competent work. Enjoy a relaxing class Sundays, 9:30~11:30 am or 1~3 pm according to demand.

Life drawing is invaluable for improving observation and rendering of shape, proportion and form. Whilst seen as a formal discipline, it is both enjoyable and invaluable as a learning tool.

# Tailored Courses

If you have a particular area of interest, eg: botanical, landscape or design graphics etc, let me know and I will tailor a course especially for you (no extra cost).
